INDEX[1]

TO VOLUME 71 OF THE AMERICAN JOURNAL OF PHARMACY.

SUBJECTS.

Accident, railroad xxi
Acetracts, fluid, in comparison with fluid extracts (*Thompson*) 47, 67
Acetyl-benzaconine, physiological action of 286
Acetylene gas-flame, action of, on platinum 274
Acid, acetic, as a substitute for ethyl alcohol in the extraction of drugs (*Squibb*) 1, 305
in syrupus Pruni virginianæ (*Remington*) 209, 255
extracts, observations on (*Thompson*) 205, 206
carbolic, decolorizing reddened solution of 280
gauze, assay of 83
poisoning 477
citric, detection of 275
hydrocyanic, absence of, in Mitchella repens 81
in various plants iii
recovery from a large dose of 39
malic, of the crassulaceæ 278
oxalic, stability of solutions of 486
phospho-glyceric, ready decomposition of iii
salicylic, gauze, assay of 84
stearic as a preventive of emulsification of alkaloidal solvents 112
sulphuric, preparation of standard solutions of 484
tartaric, determination of, in presence of citric acid xiv
Acids, action of hydrogen on x
tartaric, separation of 189
some official fluid, examination of 141
Acidum aceticum, examination of samples of 141
hydrobromicum dilutum, examination of samples of 142
hydrocyanicum dilutum, examination of samples of 142
hypophosphorosum dilutum, examination of samples of 143
lacticum, examination of samples of 143
phosphoricum dilutum, examination of samples 143
sulphuricum aromaticum, samples of 144
sulphuricum, examination of samples of 143
sulphurosum, samples of 144
Aconine, physiological action of 286
Aconite in tormentilla 87
presence of tormentilla in 48
Aconitine, pharmacology of 286
Aconitum columbianum, Nutt., distribution of xi
Air, liquid, as a drink xxxvi
in workrooms, improvement of xxiv
the upper regions of ix
Alcornoco bark 606
Alcohol as a disinfectant vi
Aldehyde, citriodoric, formula of 34
Algæ as a cause of the contamination of drinking water (*Moore*) 604

[1] Compiled by F. Yaple.

Algal flora of the Hamburg water-works xxvi
Alkaloidal assays, certain, directions for (*Gordin* and *Prescott*) . . . 462, 498
Alkaloids, estimation of, and the assay of alkaloidal drugs (*Gordin* and *Prescott*) 498, 514
extraction and estimation of 14
localization of 173
mydriatic, the 283
Allo-lemonal, formula of 34
Alochrysin, oxidation product of aloin 547
Aloe-emodin, preparation of 546
Aloes plant, specimen of 558
Unganda 510
Aloin, a study of 546
Althæa, limed 189
Aluminum acetate solution, preparation of 230
American colleges, bequests for xxi
Pharmaceutical Association . . . . . 98, 296, 405, 491, xxxv
Philosophical Society 294
Ammonia as a fire extinguisher xix
determination of, in water 160
Ammoniac, tests for 85
Ammonium di thio-carbonate, as a substitute for hydrogen sulphide in analysis 434
Andropogon citratus, oil of 34
Anemonin, derivation of xvi
Anhalomin, new base found in Anhalonium lewinii 413
Anhalonium lewinii, alkaloids of 413
Anilin stains for bacteriological work 301
Animals, certain, immunity of, to poisons 147
Anison, the new anesthetic 233
Ants, secretion of formic acid by xxvi
Apocynum cannabinum, physiological action of 90
Aralia californica, specimen of 605
nudicaulis, the oil and terpenes of (*Alpers*) 370
Araliene, a sesquiterpene of Aralia nudicaulis 378
Araroba, commercial, composition of (*Dowzard*) 453
Arsenic in tea, estimation of xiii
Asafetida, tests for 85
Asbestos, specimen of 207
Ash, percentage of, in various drugs 82
Aspirin, preparation and properties of 461
Assay of belladonna leaves, and some of its preparations (*Moerk*) . . 105, 151
process for nux vomica, an 10
Atropin, relation of, to hyoscyamin 284
Atroscin and i-scopolamin xiv
Atrosine and scopolamine, comparative experiments with 39

Bacteria in ground water vii
relation of, to vital processes 94
Bacterial diseases, prevention of the spread of xxiii
Bacteriological investigation, attack on xxiii
Balance, an assay xxxvi
Balsam Peru, investigation of 229
Balsams, true, definition of 273
tests for 85
Bark, wild cherry, variability in quality of 255
Bean pods, cause of blackening of 281
Belladonna acetract, efficiency of 47
and nux vomica, advantage of standardized preparations of 39
leaves, assay of (*Moerk*) 320, 356
and preparations, assay of (*Moerk*) 105, 151

Belladonna leaves, improvement in method of assay of 395
plaster, the pharmacopœial standard for (*Smith*) 32
plasters, assay of (*Henderson*) 454
Benzaconine, physiological action of 286
Benzoin, tests for 85
Berberine, estimation of, with standard potassium iodide 257
Bismuth, a new reaction for 280
iodides, estimation of iodine in 85
subgallate ; its history, chemical composition and properties (*Kebler*), 326
tests 277
Blood, newer observations concerning the detection of, by means of the guaiacum reaction (*Schaer*) 361
Ehrlich's triple stain for 301
Blue glass, use of, between the source of illumination and the objective . vi
Bone caves of South Devon (*Worth*) 455
Bread, hygienic methods for handling of iv
British Pharmaceutical Conference 442
Brown mixture, suggestion of use of glycyrrhizin for 495
Brucine, separate estimation of 18
Bunsen, Robert, memoir of 459
Burette, weight (*Peck*) 455
Burroughs, Wellcome & Co., excursion of employés of ii

Cadinene, supposed constituent of oil of sassafras 30
Caffein, comparison of methods for estimation of xiv
in tea, kola and coffee xv
Caffeine, quantitative estimation of 145
Calcium ammonium, preparation of 485
Calendula, some new preparations of (*Beringer*) 268, 302
Calla, specimen of flower of 256
Camphor, cultivation and production of 549
dextro, presence of, in oil of sassafras 30
water, preparation of 163
Cannabinol, formula of xix
Cannabis indica, recovery from poisoning by 147
Capsule filler, a new form of 557
Caramel, detection of, in spirits and vinegar xxxvi
Carbon disulphide, commercial (*Elborne*) 455
Carborundum, manufacture of 294
Cardamoms, note on (*Lewton*) 152, 172
Cascara sagrada, glucoside of xxvi
Castor-oil beans, death due to 91
Cevadine, identity with veratrine 132
Chalk powder, compound, addition of oil of cinnamon to 494
Chandler, Charles F., personal sketch of . . . . . 457, xxi
Cheiranthin, glucoside present in Cheiranthus cheiri 435
Cheiranthus, constituents of 435
Chicago Veteran Druggists' Association xxx
Chloroform, lime as a preservative of 485
use of, as a preservative 151
poisoning, treatment for 40
Choline, presence of, in strophanthus 279
Chondrus, some notes on (*Kraemer*) 357, 479
Cinchona, alkaloidal estimation of xv
assay process for 312
extraction of, with acetic acid 305
Cinchonas, false, new 397
Cincinnati College of Pharmacy, Alumni Association of xxx
Cinnamein, determination of, in Peru balsam 230
Citral, presence of, in oil of sassafras leaves 31
Citronellol and geraniol, separation of 304

Cleveland School of Pharmacy xxi
Cocaine, a new test for (*Schaefer*) 222
solution of, in cherry laurel water 87
Cocainidine, a new coca base 256
Cocoanuts, specimens of 256
Codeine, estimation of (*Maisch*) 357
Coffee and tea, inertness of aromatic principles of 42
Cold cream, formula for 495
College of Pharmacy of the City of New York, meetings of 46, 238
Collodion, calendulated, preparation of 269
Collodium, ammoniacal, for insect stings 21
Colocynth, unpeeled, sample of 558
Colophony, investigation of 485
Color of negro children when born, the ii
Color standards of powdered vegetable drugs 497
Colors of flowers due to microbes xxxiv
Columbian spirits, extent of replacement of alcohol by, in manufacturing by pharmacists (*Thomas*) 358
Coming Age, the, for August xxix
Conferva at Neris-les-Bains, the 82
Cork, constituents of 190
Correspondence 456
Coumarin, presence of, in leaves of Liatris odoratissima 103, 133
Cowpox, a work on, by Edward Jenner 605
Creolin, variability in specific gravity of commercial samples 393
Creosote, wood tar (*Kebler*) 356, 409
Croton oil, differences in the properties of v
Crystals in paper i
Curare, alkaloids of xi
Curarin, origin and properties of xi
Curarine, location of, in bark of Strychnos species xi
Curine, principal alkaloid of curare xi

Damar, tests for 86
Datura alba, flowers of 86
Deer's-tongue leaves, economic uses of 134
Delaware Pharmaceutical Association 298
Delphinium staphisagria (*Holmes*) 450
Desoxystrychnin, preparation of xii
Diacetyl-aconitine, physiological action of 286
Diamond, the, genesis of ii
Digitalis, fat-free, tincture of (*England*) 332, 357
leaves and seed, active constituents of 190
value of, under varying conditions 145
Digitoxin as the active principle of digitalis (*England*) 379
presence of, in infusion of digitalis 145
Diphtheria toxin, composition of 232
Disinfection and germs 94
Dohme, A. R. L. Personal xxix
Doses, introduction of, to the Pharmacopœia 504
reasons for admission of, to the Pharmacopœia 560
Drowning, apparent, treatment for ii
Drug standards (*Moor* and *Cribb*) 455
Drugs and foods, vegetable, valuation of (*Kraemer*) 498, 529, 584
convenient list of, for ready reference xxv
powdered, identification of 497
note on (*Bamford*) 511
suggestions on the examination of 497
Dye, yellow azo, for coloring fats iii

Ear, the, removal of foreign bodies from xiv
Eclecticism, some of the principles of 555

Eczema of lips caused by mouth washes and tooth powders iv
Editorial 41, 94, 147, 191, 234, 288, 346, 399, 437, 487, 549, 599
Eggs, a method for the storage of xxiv
preservation of vii
"Eisen emodin," principle obtained from frangula 398
Elder juice in ergot extract 277
Elixir of ammonium valerianate, flavoring for 495
Curaçoa, sample of 301
iron, quinine and strychnine phosphate, preservation of 495
Emetine octoiodide and the extraction and estimation of alkaloids (*Gordin* and *Prescott*) 14
periodides of 516
Emulsification in alkaloidal extractions 111
Emulsifier, phœnix 152
Enzyms, or digestive ferments 548
Ether inhalation 547
Eucalyptus leaves, yellow coloring of xii
species, new 513
Eugenol, extraction of, from oil of sassafras 29
Euphorbia lathyris, poisonous properties of xv
Euphorbium, tests for 85
Euphthalmine as a mydriatic 93
Exposition official catalogue xxix

Fairs and expositions 487
Fats, a new method for determining the melting points of 344
Ferments, digestive, or enzyms 548
Ferrous oxalate as an adulterant of bismuth subgallate 355
Ferrum redactum, B.P., further note upon (*Peck*) 454
Fig, Italian, specimen of 605
Flaxseed, quality of commercial samples of 393
Flora of Devonshire (*Druce*) 455
Flour, wheat, microscopic examination of 276
Flowers, dangerous xxxiv
Fluid extracts, use of, for making other preparations, discussion on . . . 255
Fluoride of potassium and antimony as an adulterant of tartar emetic . . 355
Foods, artificial; why they exist and what they are (*Remington*) . . 357, 383
Formaldehyde, new method for estimating 486
Formalin, possible use of, for preserving pharmaceutical preparations . . 152
Frangula, constituents of 398
efficacy of glycerite of 399
rhamnetin, principle obtained from frangula 398
Franklin Institute's anniversary . . . . . xxv, xxxii
Fruits, value of, in many forms of disease i
Funnel-holder, a 303

Galbanum, tests for 85
Gamboge, examination of commercial product 394
Gases of the atmosphere, new 294
Gauze, medicated, assay of 83
Gauzes, medicated 282
Gelsemium sempervirens, structure and development of internal phloem in (*Thompson*) 422
Germs and disinfection 94
Geranial, formula of 34
Geraniol and citronellol, separation of 304
presence of, in oil of sassafras leaves 31
Gilchrist fruit jar, construction of 557
Glass, solder for xvii
Glucose, diabetic, determination of (*Parker*) 451
Glycerin, addition of, to percolate rather than menstruum 255
sample of, obtained by analysis of sample of "Husa" 301

Graduate, recent, the . . . xxx
Graduates, college, in business . . . ii
Graphite, artificial . . . 294
Guaiacol, estimation of, in creosote . . . 413
Guaiacum reaction for blood (*Schaer*) . . . 361
Gum-resins, inodorous, constituents of . . . 272
odorous, classification of . . . 272
tests for . . . 85
Gums, resins, etc., classification of (*Lewton*) . . . 270
true, classification of . . . 270
Gutta-percha, green, from leaves of the caoutchouc tree . . . v

Hæmocytoza of birds . . . xiv
Hamamelis bark, constituents of . . . 277
Hammar, Alrik, banquet to . . . xxxi
Hanbury medal, the, award of, for 1899 . . . xxix
Headache powders, poisoning by . . . 91
Heinitsh, Charles Augustus, memoir of (*Redsecker*) . . . 78
resolutions on the death of . . . 359
Heliotropine (*see* piperonal) . . . 28
Hemorrhage, calcium chloride in treatment of . . . iii
Heroin and heroin hydrochloride, administration of . . . xxv
Herrera, Alphonso. Personal . . . xx
Holmes, E. M. Personal . . . xxix
"Hopein," composition of . . . xx
Hops, volatile oil of . . . 279
"Husa," an asserted plant preparation to cure the opium habit, and an investigation into (*Lloyd*) . . . 210, 301
Hyalodendron navalium, a new genus and species of sponge . . . xxvi
Hybrid pigeon, a, fertility of . . . xxxiv
Hydrastine, estimation of, with standard iodine . . . 257
hexiodide and assay of Hydrastis Canadensis (*Gordin* and *Prescott*) . 257
periodides of . . . 517
Hydrastis, assay of . . . 472, 518
assay of fluid extract of . . . 344
the composition of . . . 498
relative value of rhizome and rootlets . . . 86
Hydrogen, action of, on acids . . . x
peroxide (*Tyrer*) . . . 451
as a test for salicylic acid (*Ridenour*) . . . 414
sulphide, a substitute for, in analysis . . . 434
Hyoscin, influence of alkalies upon . . . 284
Hyoscyamin, nature and occurrence of . . . 284
Hyoscyamus, assay of (*Puckner*) . . . 499

Indigo, artificial . . . 294
Infant mortality and ignorance . . . xxvii
Influenza, bacillus of . . . i
Iodoform gauze, assay of . . . 83
Iodometric estimation, comparative merits of . . . 524
Ipecac, acetract of, loss of alkaloid by evaporation of . . . 47
cultivation of, in India . . . 606
Ipecacuanha, assay of . . . 472
assay of the liquid extract and wine of (*Naylor* and *Bryant*) . . . 446
assay of the official liquid extract, wine and vinegar of (*Farr* and *Wright*) . . . 442
miscible liquid extract of (*Bird*) . . . 444
Johore (*Umney* and *Swinton*) . . . 449
Ipecacuanhæ, extractum, liquidum, assay of (*Wilson*) . . . 73
I-scopolamin and atroscin . . . xiv

Jaborandi, alkaloidal strength of preparations of (*Farr* and *Wright*) . . 449
Jatropha gossypifolia, medicinal properties of 456
Jefferson Medical College, formal opening of the new Medical Hall . . xxxiv

Kaolin as a base for a substitute for poultices 478
Kobert, Rudolf. Personal xxxi
Kola, constituents of 84
Kola-red, composition of 84
Küster's method, value of, for testing sodium bicarbonate 38
Laboratory notes (*La Wall* and *Pursel*) 358, 392
Language, universal, for men of science xxx

Lauro tetanin, chemical properties of 483
Lead as an abortifacient ix
Lemna, red, specimens of 48
Lemon juice, permanent, formula for xix
Liatris odoratissima, proximate analysis of leaves of (*Falkenhainer*) . 103, 133
Licorice root, Californian, specimens of 256
Life, the right to terminate xxxiv
Lime as a preservative of chloroform 485
Linalool, presence of, in oil of sassafras leaves 31
Liquor bismuthi et ammonii citratis (*Dudderidge*) 452
Lithium ammonium, preparation of 485
benzoate and lithium salicylate (*Kebler*) 48, 57
citrate (*Kebler*) 103, 137
salicylate, properties of 62
Lloyd, John Uri, a new book by xxxv
Loew, O., investigations by ix
Lozenges, B.P., analytical notes on (*Davis*) 451
Lubricants for glass stopcocks i
Lysol poisoning 232

Magnesium citrate, effervescent solution, preparation of 495
effervescing, an adulterant of (*Kebler*) 545
Manganese in plants xix
Marine Biological Laboratory, the courses of xxii
Maryland College of Pharmacy, reception to students and faculty of . . . xxii
Massage treatment, history of xiii
Materia medica, notes on (*Lowe*) 254
Medical druggist, the (*Emanuel*) 359
Medicine dropper, convenient 152
glass, acme 303
history of, in America 555
Melting-points (*Tyrer* and *Levy*) 455
apparatus for determining 345
Merck Pharmacy, the, announcement of xxv
Metric system, use of 504
use of, in board of pharmacy examinations 504
Microscopic sections, methods for preparation of viii
Milk, pasteurization of vii
Millet hay, active principle in xiv
Minnesota State Pharmaceutical Association 407
Moerk, Frank X., election of, to chair of analytical chemistry 360
Morphine, cubes of 207
sample of, obtained by analysis of sample of "Husa" 301
Moth-ball, the, as a remedy for mosquito bites xxxiv
Mueller, Dr., a memorial to xxxiv
Mydriatic alkaloids, the, chemistry of (*Reber or Pinner*) 152
Myrrh, botanical source of 513
tests for 86
Myrticolorin, yellow coloring principle of Eucalyptus makrorhynca . . . xii

Nagelvoort, J. B. Personal xxi
National Association of Retail Druggists . . . . . 507, xxxi, xxxv
Pure Food and Drug Congress 99
Neostyle, use of, for printing by pharmacists 152
Newer remedies, pharmacopœial requirements for 561
Nicotine, estimation of, in tobacco 145
neutralization of, in tobacco xix
Nitrates, estimation of, in water 157
in plant tissues xxxvi
Nomenclature, botanical 288
Nostrum evil, the, management of 505
Notes and news . . . . . i, v, ix, xiii, xvii, xxi, xxv, xxix, xxxi
Nux vomica, advantage of standardized preparations of 39
assay of 470
hairs, masses of 558

Obituary—*Allen, Grant* 606
Buchner, Ludwig . . 303
Bunsen, Robert . 459, xxix
Farr, James M. . . 408
Frankland, Edward, 509
Friedel 303
Greenish, Thomas . 605
Heinitsh, Charles A. . . 78
Hill, Arthur Stephen 304
Jeanjean, Jean-Felix 408
Merck, Wilhelm . . 207
Parke, Hervey C. . . 208
Von Waldheim, Anton
Schürer 510
Odor as an aid in the recognition of drugs (*Lowe*) 356, 416
standards, notes on 498
Ohio State Pharmaceutical Association 406
Oil, almond, and other kernel oils (*Swinton* and *Umney*) 453
Aralia nudicaulis, behavior of 372
cade investigation of 282
calendula, preparation of 269
cardamoms (*Parry*) 453
cod liver, contributions on 238
geranium, acid constituents of xvi
lemon grass, constituents of 34
linseed, American, constants of 275
olive pits xix
rose, adulterant of 280
sassafras, chemical properties of 27
examination of commercial samples 397
use of, as a preservative 151
leaves, properties of 31
volatile, of Aralia nudicaulis 374
wheat, analysis of 231
in aquæ, estimation of xix
Oils, essential, analysis of (*Kleber*) 554, 566
list of constituents of 581
volatile, classification of 273
lemon and orange, terpeneless, examination of (*Idris*) 452
Ointment of calendula, preparation of 269
Oleo-resins, classification of 273
Opium assay, processes for 522
Oranges, new hardy edible xxiii
Organic substances, identification of 500

Paper, glazed, bad for the eyes xv
waterproof, method of preparation of ix
Parke, Davis & Co.'s employés, excursion of xxv
Pasteur monument at Lille, the xxiii
Pelletier-Caventou memorial, the ix
Pellotin, new base found in Anhalonium lewinii 413
Pennsylvania Pharmaceutical Association 196, 297, 346, 347

Pennsylvania State Board of Pharmacy, results of examination of xxi
meeting of xxxv
Pepper, Mangalore, description of 304
Pepsin testing 501
Personal 457, 508
Pharmaceutical education 399
Pharmacist, the modern (*Patton*) 359
the, unexplored fields for the occupation of the idle hours of (*Stedem*), 359
Pharmacognosy, province and applications of (*Kraemer*) 302
Pharmacology 41
Pharmacological notes 38, 90, 146, 232, 283
Pharmacopœia, U. S., use of, by physicians 88
Pharmacopœias, U. S. and British, the (*Lowe*) 206, 223
Pharmacopœial Convention, the, time of meeting of 558
preparations from an economical standpoint (*La Wall*) 48, 64
shorter processes for (*Stedem*) 162, 204
Pharmacy law, model, framing of 505
recent literature relating to 34, 81, 145, 189, 229, 274, 344, 397, 434
. . . . 483, 546
the amusing side of (*Redsecker*) 359
Phellandrene, recognition of, in oil of sassafras 29
Philadelphia botanists, affiliation of xxii
Philadelphia College of Pharmacy:
Alumni Association 199, 245
Classes of 1898–99 49
Commencement 198, 240
Donation to library 239
Election of officers and trustees 240, 558
Examinations 199, 201, 246
Graduates 240
Minutes of meetings 239, 456, 558
Pharmaceutical meetings 47, 102, 151, 204, 254, 300, 554, 603
Prizes awarded 243, 245
Reports of officers and standing committees 239
Scholarship, endowment of 558
Specimens exhibited and presented, 48, 104, 152, 205, 207, 256, 301, 557, 605
Philadelphia Exposition, the xxii
Association of Retail Druggists . . . . 150, 197, 298, xxv, xxxv
Phosphorus necrosis, a curious case of 92
Physiological action as a department of pharmaceutical research (*Houghton*) 473, 498
Pills, Blaud's, strength of commercial capsules of (*Stuart*) 454
Pilocarpine—assay of preparations containing it, and the characters of the pilocarpine nitrate and hydrochloride (*Jowett*) 449
Pilular extracts, incorporation of 495
Pinene, separation of, from oil of sassafras 29
Pinus echinata, analysis of bark of (*Koch*) 164, 207
Piperazin, injections of xxxvi
Piperonal, derivation of 28
Plague, propagation of, by rats iii
Plant analysis, proximate, a common error in recorded results of (*Kebler*) 25, 104, 144
food, a work on xxiii
Plants, economical, of East Africa 510
Podophylloresin, active constituent of Indian podophyllum 39
Podophyllotoxin, active constituent of Indian podophyllum 38
Podophyllum, priority in certain investigations of i
therapeutics of 38
Poison bottle, new 152
Poisoning, curious escape from xxiv
lead, from the use of soda water iv

Poisons, immunity to (*Thompson*) 171
immunity of certain animals to 147
Polonic rays 234
Potassium cyanide, examination of samples of 395
Poultices, a substitute for (*Wilbert*) 478
Powder measure, acme 303
Powdered drugs, microscopic measurement of, and determination of water in xxviii
Powders, device for division of 303
estimation of density of 484
Preparations, pharmacopœial, from an economical standpoint (*La Wall*) . 48
Prescott, Albert Benjamin, personal sketch of 508
Prescription files, comparison of 495
Protocuridine, origin and properties of xii
Protoplasm, structure of xxviii
Protocarin, origin and properties of xii
Ptomaine resembling strychnine, a 88
Purshianin, glucoside obtained from cascara sagrada xxvi

Quinine for hypodermic use iv
hydrochlorates, preparation of 231
Quebracho, origin and uses of (*Lewton*) 22

Rattlesnake's fangs, a, abnormal development of xvii
Rays of energy 234
Reaction, defensive, of the organism xxxvi
Remington, Jos. P., degree conferred upon 360
Resin, assay of 85
Resins, tests for 85
true, classification of 271
